

MEDOS VAD-Pump-Chambers

- multiple pump-chamber sizes to accommodate a variety of patients
- transparent pump-chamber for complete visualization
- optimized flow design minimizing blood trauma

MEDOS VAD-Pump-Chambers

Since 1994, the MEDOS VAD pump-chambers have been successfully implanted as a mechanical heart-support-system. The variety of available pump-chamber-sizes can accommodate adult-, infant- and paediatric applications, providing a complete range of patient support.

-  optimized flow-guidance
-  completely transparent housing
-  easy venting
-  excellent rinsing condition
